Key Insight:

Mountain-200 bike models are the strongest revenue drivers. High-performing bike products generate most revenue, while accessories contribute lower revenue due to lower selling prices.

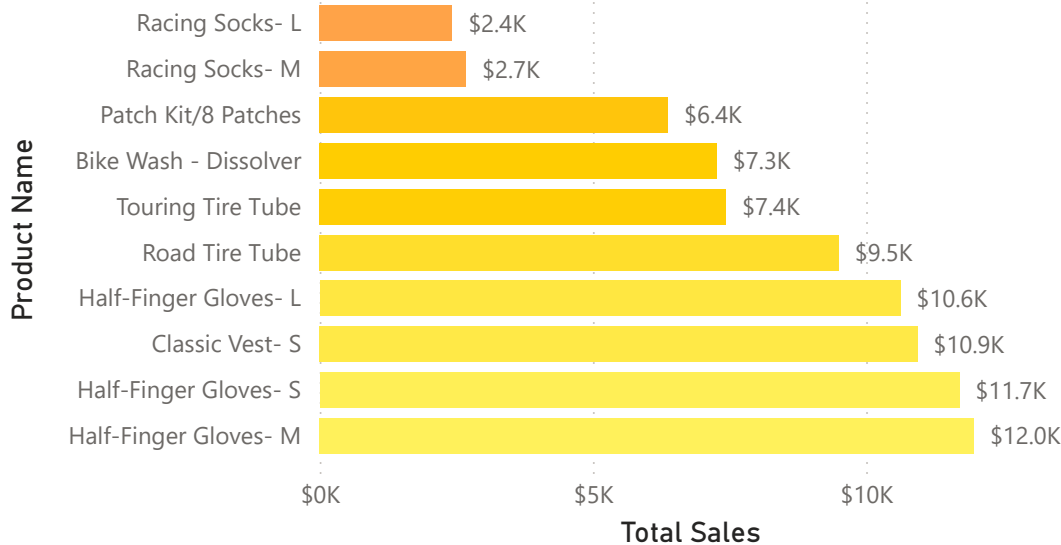

Category Performance Summary

category	Total Sales	Total Quantity	Average Price
Accessories	\$700.3K	36.11K	19
Bikes	\$28,316.3K	15.21K	1862

Key Insight:

New customers form the largest customer segment and generate the highest total sales. VIP customers are fewer but highly valuable, with the highest average order value and strong revenue contribution.

Highest Monthly Sales

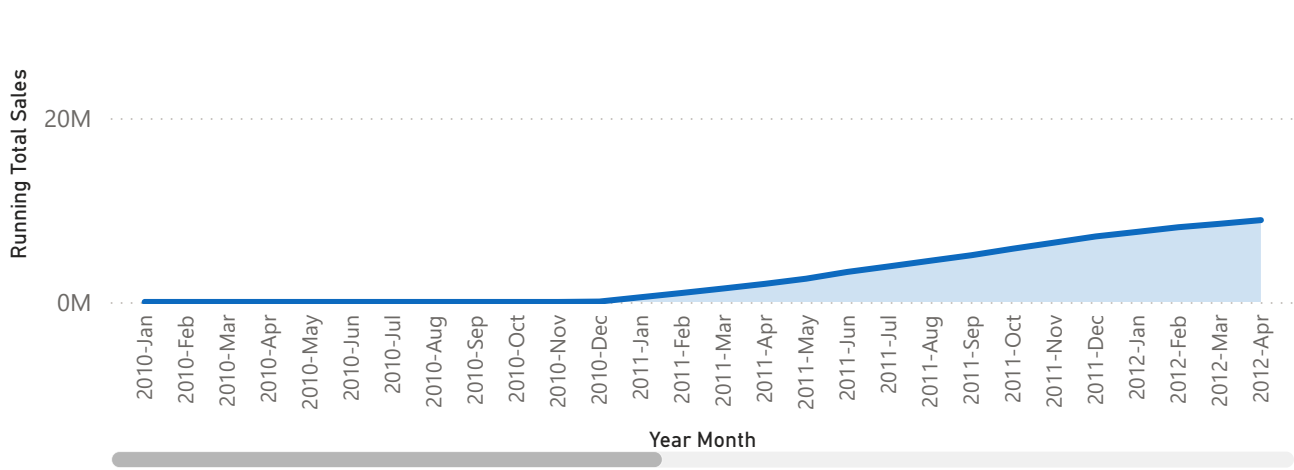

Key Insight:

Sales grew strongly during 2013 & reached the highest monthly sales in Dec 2013. January 2014 appears to contain partial data, so it should not be treated as a full-period decline without additional validation.
